Area of Consideration

NATIONWIDE. All applications will be accepted; however, first consideration will be given to Group A and/or Group B.

Summary

This position is located in the Imagery Intelligence (IMINT) exploitation section at an Air National Guard (ANG) Intelligence unit. The primary purpose of the position is to perform specialized IMINT duties as a Distributed Ground Station (DGS) crewmember and to train assigned military unit members in the duties and functions associated with IMINT Tasking, Processing, Exploitation, and Dissemination (TPED). Provides real-time IMINT TPED support to National Agencies, Joint Commands, Air Force Major Commands (MAJCOMs), Air Operations Centers (AOCs), and US and coalition airborne assets in exercises and contingency operations. Ensures real-time and near-real-time IMINT reporting and analysis is timely and accurate. Manages cyberspace system analysis and design, programming, systems operation and maintenance, resource management and security management. Directs activities for installing, maintaining, repairing, overhauling, deploying, and modifying cyberspace systems and equipment platforms. In addition, manages and directs network operations in garrison and at deployed locations by performing duties to develop, sustain, and enhance network and electromagnetic capabilities to defend national interests from attack. Ensures personnel are trained, equipped, and available to perform the assigned mission. Conducts career field development and mentoring for subordinate cyberspace support personnel. Introduces Airmen to career field path and steers growth to feed into the cyberspace deliberate development program.
